High School Update – Spring 2024

Courtney Christian School continues to plan for the addition of ninth and tenth grades in August 2024, with several recent steps being completed in the process to see this long-awaited goal realized.

As previously mentioned, Dr. Melanie Monistere will serve as principal of the Upper School, which will include seventh through tenth grades beginning in August. We are in the final stages of hiring faculty for the Upper School; all faculty hired to date are degreed, certified and experienced in their respective areas. An announcement welcoming these individuals to the CCS team will be made soon.

Additionally, we are excited to announce CCS has been accepted into the Association of Christian Educators of Louisiana (ACEL) Athletics league for high school sports. Based on the interest of the students, it is our desire to offer eight-man football, volleyball, baseball, softball, cross country, track and field, basketball, coed soccer and tennis.

As we continue to move forward with our gymnasium expansion project that also includes a second story to house the Upper School, we are excited to announce that we have secured a temporary location extremely close to our current campus to house Upper School classes until the project is completed, should that occur later than August. We also have selected the curriculum for our high school students, which will include Bob Jones and Dave Ramsey, to provide the rigor needed to meet the state-approved diploma and TOPS scholarship requirements.

We have been hosting prospective parents and students on campus as they interview for available spots for the upcoming school year. The interest in our high school grades as well as our enrollment have been growing daily. We will continue to interview until all spots have been filled.
