

Asbestos Information Notice

Courtney Christian School has been certified by the construction architect that to the best of their knowledge no asbestos containing building materials were used in the construction of any of our buildings. The Louisiana Administrative Code requires that an asbestos management plan be developed and maintained for all schools. This management plan has been assembled according to the requirements of LAC 33:III. The plan is available for review to anyone interested and will be kept on file at the school office. Questions or concerns should be directed to Kenya Carter at 985-393-0227.
